Universal, targeted and specialist interventions and services for social emotional and mental health (SEMH) needs in Barnet

This document is a resource for schools describing SEMH interventions and services available in the local area. It was developed by a working group of representatives from the Barnet community from the Leading Edge Group (LEG) for SEMH, including SENCo representatives from Barnet primary, secondary and special schools; advisory teacher from high incidence support team (HIST); educational psychologist (EP) and wellbeing practitioner.

Inclusion criteria for the interventions and services listed include:

- Researched and evidence-based for children and young people aged 2-25 years old
- Recommended by local school staff and school-based practitioners
- Available locally

Caution: The document is not an exhaustive list. The document does not promote or advocate organisations and interventions but offers a range of interventions and services that may meet specific SEMH needs. It will be reviewed regularly and inclusion in the list will be agreed at the Barnet SEMH LEG meetings. Up-dates to the document will be published on the Barnet Local Offer. Please email suggested changes to: hist.team@barnet.gov.uk

Definitions:

Universal	Whole class or school interventions; available to all.
Targeted	Group or individual interventions; available to some children and young people with specific SEMH needs.
Specialist	Interventions for individuals with more significant SEMH needs (including specialist interventions).
