School Data Dashboard

Sarah Beaumont
Governor Services Manager

School Data Dashboard

- A public online tool displaying a range of school performance data
- Launched by OfSTED in February 2013
- For all primary and secondary schools using data from Key Stages 1,2 and 4.

The Dashboards contain data on:

- Pupil attainment (test results and assessments)
- expected progress
- attendance, and
- narrowing the gap between pupils eligible for Pupil Premium and pupils who are not.

- They also allow for simple performance comparisons with other schools with similar pupil attainment on entry.

More details are available on:

http://dashboard.ofsted.gov.uk

Training session

"School Data Dashboard: a tool to support the Governor's Role as critical friend"

Tuesday 2 July 2013 at 7 – 9pm

led by Mike Horton
